

There's still time

**Enroll** now. **Ensure** continuous access to quality testing. **Enhance** patient care.

### Provider enrollment in PECOS is a CMS mandate

- The Patient Protection and Affordable Care Act requires that physicians and eligible professionals enroll in Medicare to order and refer services, including clinical laboratory tests, for Medicare beneficiaries.
- Medicare will not pay for clinical laboratory services unless the physician or non-physician practitioner that ordered the testing is enrolled in Medicare's Provider Enrollment, Chain and Ownership System (PECOS).
- All providers with a National Provider Identifier (NPI) number must enroll.

### Ensure quality testing from Quest without disruption for Medicare patients

- Quality lab testing is a vital part of your patient care. Quest Diagnostics will now only accept lab orders through Care360® for Medicare patients from providers enrolled in PECOS.
  - If the provider is not registered, they will need to cancel their order and enroll in PECOS before they can proceed with testing.

Lab testing is vital to patient care. Enroll in PECOS today so you can continue to provide your Medicare patients with quality services from Quest Diagnostics.

The good news is it's easy to enroll in PECOS—you can choose to enroll online or by mail. **See reverse for how to prepare and enroll online.**
