

Quantum™ Interactive Insights™

Actionable Lab Test Results.
Up-to-Date Reference Information.
Patient Insights.

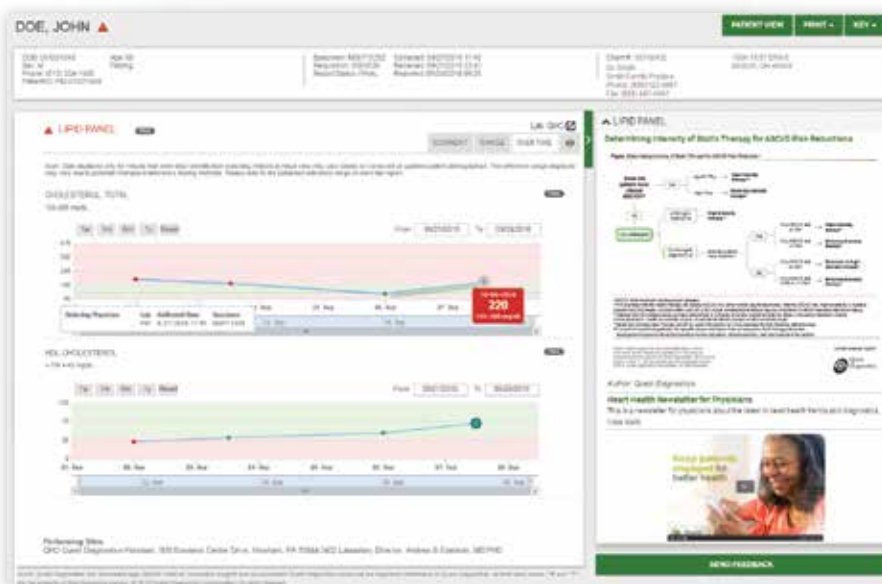

Insights whenever you need them and viewed however you want them.

Quantum Interactive Insights was created with one goal in mind: To bring insights closer to the point of care. It is about having the right information at the right time in the right format, so you can stay focused on patient care.

Interactive Insights shows you current results and trends in context of a patient's continuum of care. You can quickly find out a range results; share results with patients; and easily access relevant contextual content.

Interactive Insights can be viewed **integrated with EMR/EHR systems** and its full functionality is automatically available in the Quantum platform. Finally, Interactive Insights is **fully mobile**, so you can access powerful functionality wherever you are.

1

Find abnormal results quickly with priority coloring and display order.

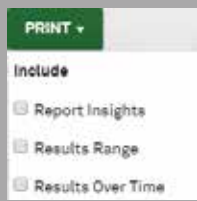

2

See analyte trends over a two-year span, for all results stored with Quest Diagnostics.

3

View algorithms, clinical use and background information for tests you have ordered.

4

Customize options when printing.

Empower your patients with information that matters to them.

Patients can now experience deeper insight into their health with a simplified format that contains relevant and easily digestible highlights. Test results are supported by relevant content (FAQs, informative videos, educational material) that guide patients in reviewing their results.

This is an additional path to enhance communication and understanding between you and your patients.

125-200 mg/dL

5

Patients see results in a format that is easily understandable when they log into their MyQuest patient portal (or you provide them a copy).

6

Patients can purchase their result history and see trends over time through their MyQuest patient portal.

7

Patients are provided with FAQs and educational content related to their test results.

Interested in more Interactive Insights for your practice?

Go to QuestDiagnostics.com/InteractiveInsights for more details, or call 1-800-697-9302 for more information.

With Interactive Insights you get:

- Easy to read, flexible display of test results
- Three result views: current, range and over time
- Result trends over a two year period
- Result flagging and display based on priority
- Clinical use, test algorithms and supportive content
- Ability to add comments to patient reports available to Quantum EHR (formerly Care360) customers
- Mobile accessibility for tablets and smart phones
- Integration with EMR/EHR systems
- Patient friendly report view including FAQs, information and videos tailored to the patient audience
