

Insights and support for every step along the **fertility journey**

**Reproductive
donor testing**
options from
Quest Diagnostics

Trusted solutions for reproductive donor testing

As a fertility treatment service provider, you support your patients' unique family-building needs and understand their challenges and triumphs. Quest Diagnostics is here to support you along the way by providing a comprehensive portfolio of donor fertility testing solutions that are authorized, cleared, or approved by the FDA.

An easy-to-use, all-in-one donor kit

Robust processes that meet the most stringent requirements, including fast turnaround time

A dedicated Specialty Donor Services team and a team of medical experts available for consultation and results interpretation

Experience the **Quest** difference

With a unique combination of skills, resources, and reach, Quest can provide fertility service providers with timely and accurate donor testing results plus comprehensive tools and services.

A comprehensive menu

- Explore a full array of tests, including male and female panels and other individually orderable tests
- Order kits for in-office use or to be shipped directly to your donor patient to be tested at our patient service centers

A dedicated donor laboratory

- Rely on our FDA-registered, CAP-accredited, and CLIA-certified laboratory to meet all your reproductive donor compliance testing needs

A simplified ordering process

- Experience the convenience of ordering through your EMR or our portal, Quantum® Lab Services Manager
- Take advantage of our fast shipping and turnaround time

White-glove service

- Count on us to deliver high-touch specimen processing, rigorous quality assurance, and a dedicated customer service team

If you have any questions, just ask our Specialty Donor Services team.

Call us at **1.833.977.7636** from 7:00 AM ET to 7:00 PM ET, Monday-Friday

Fast, convenient donor testing

FDA requires infectious disease testing for all donors of human cell, tissue, and cellular- and tissue-based products (HCT/PS) in a registered laboratory. As a registered donor testing laboratory, Quest offers reproductive donor panels that test for FDA-mandated conditions in both women and men.

Reproductive donor male panels

Test code	Test
93306	Reproductive Donor Male Panel Includes Donor, Hepatitis B Surface Antigen with Reflex to Confirm (17375); Donor, Hepatitis C Antibody (Anti-HCV) (93305); Donor, Hepatitis B Core Total Antibody (17378); Donor, HIV-1/2 plus O Antibody Screen (17380); Donor, HTLV-I/II Antibody Screen (17379); Donor, Syphilis IgG Antibody (17389); Donor, Cytomegalovirus Antibody, Total (17388); Donor, <i>Chlamydia trachomatis</i> / <i>Neisseria gonorrhoeae</i> , RNA, TMA (17385); Donor, HIV/HCV/HBV NAT Procleix® with Reflexes (19854); Donor, West Nile Virus, NAT (19412)
13990	Reproductive Donor Male with Reflex to CMV IgM Includes Donor, Hepatitis B Surface Antigen with Reflex to Confirm (17375); Donor, Hepatitis C Antibody (Anti-HCV) (93305); Donor, Hepatitis B Core Total Antibody (17378); Donor, HIV-1/2 plus O Antibody Screen (17380); Donor, HTLV-I/II Antibody Screen (17379); Donor, Syphilis IgG Antibody (17389); Donor, Cytomegalovirus Total with Reflex Non-donor CMV, IgM (19618); Donor, <i>Chlamydia trachomatis</i> / <i>Neisseria gonorrhoeae</i> , RNA, TMA (17385); Donor, HIV/HCV/HBV NAT Procleix® with Reflexes (19854); Donor, West Nile Virus, NAT (19412)
13991	Reproductive Donor Male with Reflex to CMV IgG/IgM Includes Donor, Hepatitis B Surface Antigen with Reflex to Confirm (17375); Donor, Hepatitis C Antibody (Anti-HCV) (93305); Donor, Hepatitis B Core Total Antibody (17378); Donor, HIV-1/2 plus O Antibody Screen (17380); Donor, HTLV-I/II Antibody Screen (17379); Donor, Syphilis IgG Antibody (17389); Donor, Cytomegalovirus Antibody, Total with Reflex to (IgG, IgM) (90557); Donor, <i>Chlamydia trachomatis</i> / <i>Neisseria gonorrhoeae</i> , RNA, TMA (17385); Donor, HIV/HCV/HBV NAT Procleix® with Reflexes (19854); Donor, West Nile Virus, NAT (19412)
13992	Reproductive Donor Male with Reflex to HIV Differentiation Includes Donor, Hepatitis B Surface Antigen with Reflex to Confirm (17375); Donor, Hepatitis C Antibody (Anti-HCV) (93305); Donor, Hepatitis B Core Total Antibody (17378); Donor, HIV-1/2 plus O Antibody Screen with Reflex to Differentiation (94973); Donor, HTLV-I/II Antibody Screen (17379); Donor, Syphilis IgG Antibody (17389); Donor, Cytomegalovirus Antibody, Total (17388); Donor, <i>Chlamydia trachomatis</i> / <i>Neisseria gonorrhoeae</i> , RNA, TMA (17385); Donor, HIV/HCV/HBV NAT Procleix® with Reflexes (19854); Donor, West Nile Virus, NAT (19412)
13993	Reproductive Donor Male with Reflex to HIV Differentiation and CMV IgM Includes Donor, Hepatitis B Surface Antigen with Reflex to Confirm (17375); Donor, Hepatitis C Antibody (Anti-HCV) (93305); Donor, Hepatitis B Core Total Antibody (17378); Donor, HIV-1/2 plus O Antibody Screen with Reflex to Differentiation (94973); Donor, HTLV-I/II Antibody Screen (17379); Donor, Syphilis IgG Antibody (17389); Donor, Cytomegalovirus Total with Reflex Non-donor CMV, IgM (19618); Donor, <i>Chlamydia trachomatis</i> / <i>Neisseria gonorrhoeae</i> , RNA, TMA (17385); Donor, HIV/HCV/HBV NAT Procleix® with Reflexes (19854); Donor, West Nile Virus, NAT (19412)
13994	Reproductive Donor Male with Reflex to HIV Differentiation and IgG/IgM Includes Donor, Hepatitis B Surface Antigen with Reflex to Confirm (17375); Donor, Hepatitis C Antibody (Anti-HCV) (93305); Donor, Hepatitis B Core Total Antibody (17378); Donor, HIV-1/2 plus O Antibody Screen with Reflex to Differentiation (94973); Donor, HTLV-I/II Antibody Screen (17379); Donor, Syphilis IgG Antibody (17389); Donor, Cytomegalovirus Antibody, Total with Reflex to (IgG, IgM) (90557); Donor, <i>Chlamydia trachomatis</i> / <i>Neisseria gonorrhoeae</i> , RNA, TMA (17385); Donor, HIV/HCV/HBV NAT Procleix® with Reflexes (19854); Donor, West Nile Virus, NAT (19412)

Components of panels can be ordered separately.

Reproductive donor female panels

Test code	Test
93307	Reproductive Donor Female Panel Includes Donor, Hepatitis B Surface Antigen with Reflex to Confirm (17375); Donor, Hepatitis C Antibody (Anti-HCV) (93305); Donor, Hepatitis B Core Total Antibody (17378); Donor, HIV-1/2 plus O Antibody Screen (17380); Donor, Syphilis IgG Antibody (17389); Donor, <i>Chlamydia trachomatis</i> / <i>Neisseria gonorrhoeae</i> , RNA, TMA (17385); Donor, HIV/HCV/HBV NAT Procleix® with Reflexes (19854); Donor, West Nile Virus, NAT (19412)
13989	Reproductive Donor Female Panel with Reflex to HIV Differentiation Includes Donor, Hepatitis B Surface Antigen with Reflex to Confirm (17375); Donor, Hepatitis C Antibody (Anti-HCV) (93305); Donor, Hepatitis B Core Total Antibody (17378); Donor, HIV-1/2 plus O Antibody Screen (17380); Donor, Syphilis IgG Antibody (17389); Donor, <i>Chlamydia trachomatis</i> / <i>Neisseria gonorrhoeae</i> , RNA, TMA (17385); Donor, HIV/HCV/HBV NAT Procleix® with Reflexes (19854); Donor, West Nile Virus, NAT (19412)

Components of panels can be ordered separately.

Mail to Home Kit, Reproductive Donor: 13964

Order this code in addition to test codes, and we will ship a kit directly to your donor patient for testing at one of our Quest Patient Service Centers.

Reproductive Services, Donor: 14294

Order this code in addition to test codes when testing in-office and receive white-glove services for your patients' specimens and FedEx tracking.
