

## Practice Solutions

Connecting you to the greater healthcare landscape.

Our clinical & financial solutions connect healthcare organizations, physicians, and patients to **improve access to information and insights.**

With our software you can combine a powerful electronic health record platform with a comprehensive revenue cycle management solution and robust patient engagement tools. Our applications work harmoniously to promote patient-physician loyalty, provider collaboration, and positive patient outcomes.

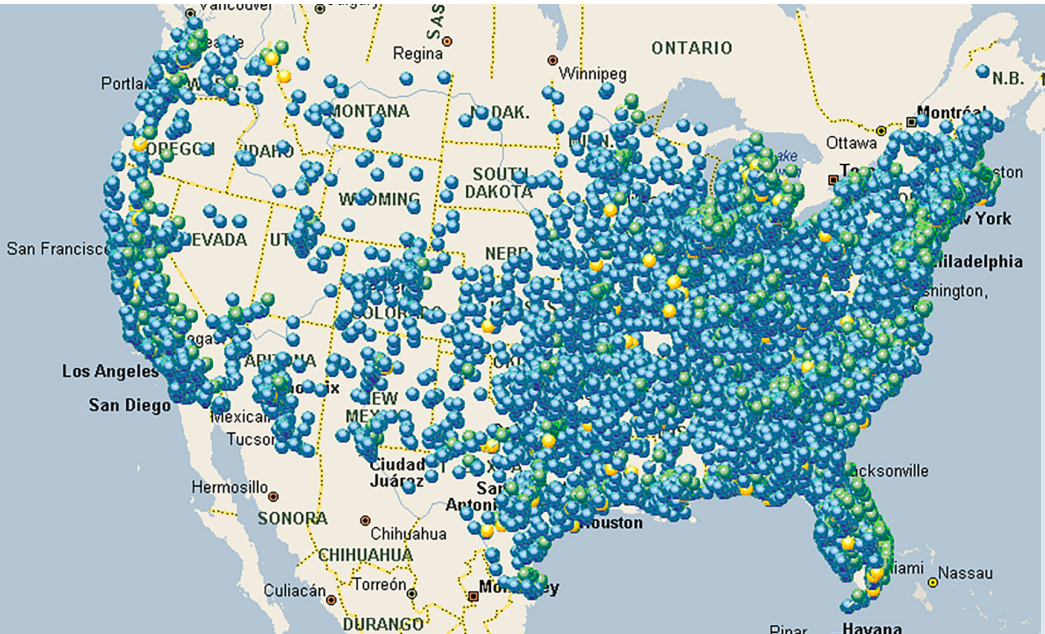

## Collaborate with a company you trust

Help us build the foundation for healthcare organizations and physicians to meet CMS objectives.

Actively support healthcare reform principles while implementing a solution that supports more advanced collaboration.

Join our empowered healthcare community with exceptional care coordination and connectivity.

Benefit from a reliable partner that excels at meeting your evolving needs.

A map of the United States and parts of Canada, densely populated with small blue and green circular markers representing clinician locations. Major cities and state names are labeled across the map.

With access to more than 500,000 clinicians in over 160,000 locations, the Quantum network is known for fast, efficient, and powerful healthcare connectivity.

## Together we can

**Connect your organization** to a community of more than 500,000 clinicians already in the Quest network.

**Deliver valuable clinical insights** to give physicians real-time, evidence-based clinical decision support at the point of care, to help improve patient care and reduce medical errors, such as adverse drug events.

**Link providers together** across care settings to develop collaborative care teams for improved continuity of care by securely exchanging patient health information using Direct Exchange with those that are in the DirectTrust accredited network.

**Drive quality** through benchmarking and tracking of clinical quality measures, while gaining access to real-time scorecards that help evaluate and identify improvement opportunities.

**Quest Diagnostics** delivers more than just results; **we deliver insights** into your patients' health that both patients and providers can view.

With our expertise in healthcare and laboratory services, along with our success in building beneficial technologies, we can help you achieve your strategic objectives by delivering solutions that:

- Manage your patient population
- Share patient information between affiliated physician practices and healthcare organizations
- Maintain point-of-order decision support
- Offer flexible connectivity in your unique environment
- Support data integration
- Drive closure of gaps in care
- Conduct population assessments and baseline analysis
- Provide testing in all relevant settings
- Integrate with ACO patient population applications

**“Overall, Quantum EHR has been extremely useful clinically, and for practice management as well. It’s a pleasure to use for the physician, and likely benefits in longevity—as well as quality of life—to patients...”**

**- Dr. M., St. Johns, FL**

## Quantum™ Practice Solutions

### RCM

Revenue Cycle Management

Verify insurance  
Billing and collections

### EHR

Electronic Health Record

Document patient encounters  
Synchronize health data

### PM

Practice Management

Schedule appointments  
Manage office workflow

**Quantum Revenue Cycle Management (RCM)** provides a holistic solution to managing the financial component of your practice—from claims to denials—with a focus on improving collections and revenue.

**Quantum Electronic Health Record (EHR)** allows you to effectively document a full clinical encounter and supports the collection of data for your tracking and reporting requirements. Quantum EHR contains a sophisticated Clinical Decision Support (CDS) tool and also provides a mobile solution, Quantum EHR for iPad®, that allows you to take your office wherever you go.

**Quantum Practice Management (PM)** simplifies all of the essential daily tasks of your medical office and includes scheduling and billing, dashboards, and customizable reports with a seamless flow of information from your EHR solution.

## Information sharing

**Data Exchange** provides the tools you need for robust, structured data exchange between disparate systems, enabling a single-patient view that integrates data across the care continuum in real time.

**MyQuest™** patient portal offers a way to connect physicians with patients by securely sending messages regarding treatment plans, follow-up testing, medications, and more.

**CCDA Auto Export** offers organizations the ability to automatically transmit patient data from Quantum EHR in a CCDA industry-standard, market-accepted format. This service provides the ability to send patient clinical data automatically—where patient activity occurred—on a routine, scheduled basis.

**Patient Lab History** allows providers to view and optionally import test results that were ordered by other providers for the patient in a compliant manner. Consequently, Quantum EHR is the only EHR with embedded access to a patient's extensive lab history.

**Quest Diagnostics** also offers exclusive services such as universal lab ordering and results, Quest Diagnostics Health and Wellness Services patient testing, and instant connectivity to more than a half-million clinicians on the Quantum network.

Quantum Practice Solutions  
empower healthcare communities  
by providing better care coordination  
and connectivity with healthcare  
organizations and their physician  
referral networks.
