

## Step 1: Log in

Go to **IntelliDraw.QuestDiagnostics.com** and enter

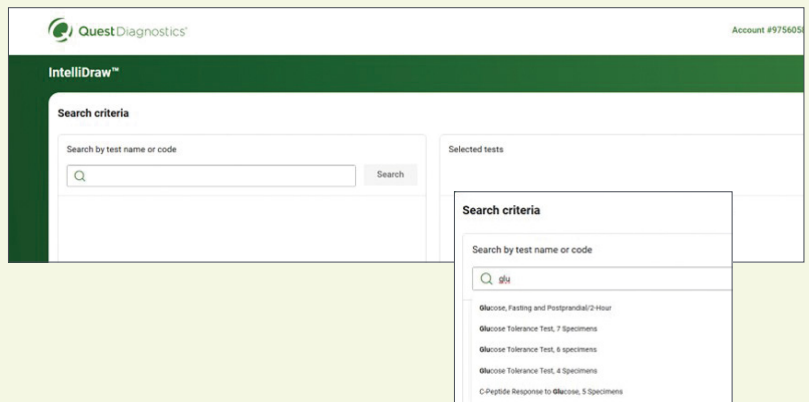

- Client account number
- Zip code associated with the account

**Note:** National accounts may be prompted to select a service area. If only one service area is associated with your account, you'll automatically proceed to the next step.

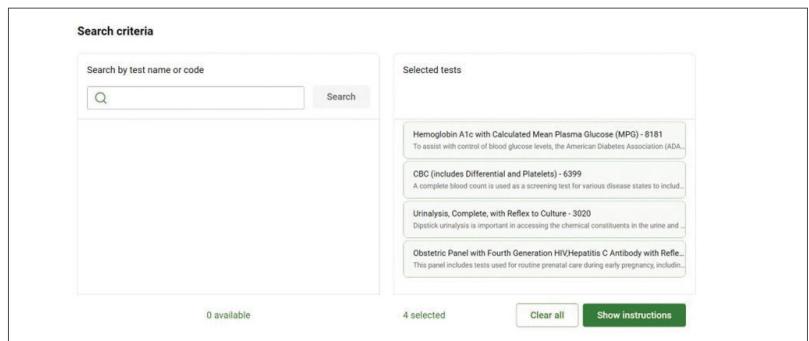

## Step 2: Find your test

Search by entering a **test name** or **test code**, or select a test from the suggested options

## Step 3: Add tests

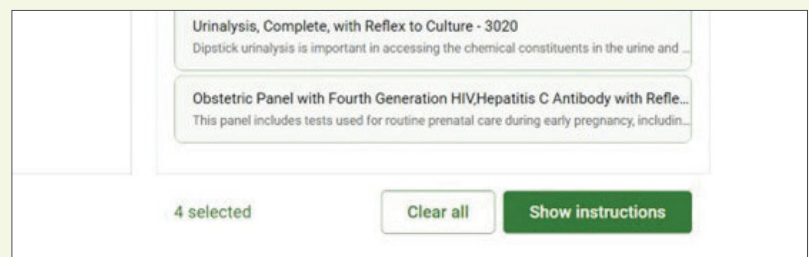

Add **1 or more tests** to your cart

## Step 4: Generate instructions

Click **show instructions** to view

- Specimen collection summary
- Processing instructions
- Transportation details

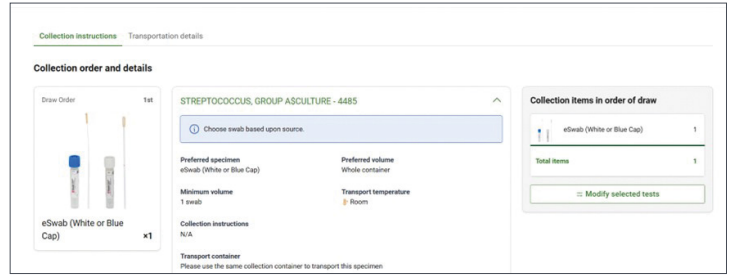

# Review and adjust your instructions

## Step 5: Review collection requirements

Review the **specimen collection summary**

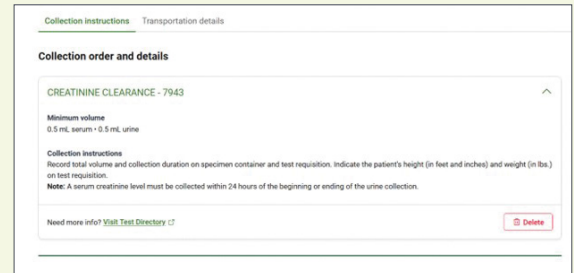

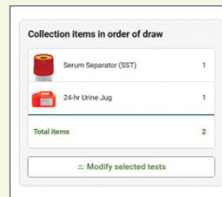

Click **Transportation details** to view temperature-specific handling requirements

## Step 6: Modify your test selection (if needed)

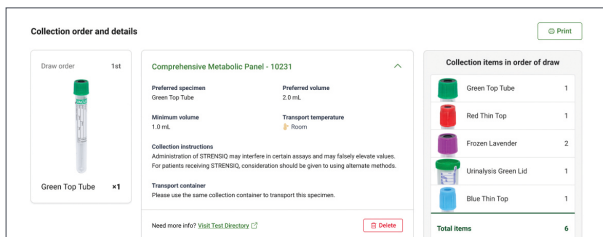

Click to modify selected test(s) or click Delete to remove test

Instructions will automatically update based on your changes

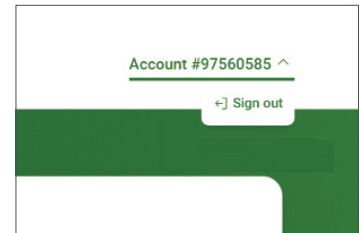

# Finalize

## Step 7: To view, download, or print a PDF of instructions, click Print

## Step 8: Switch accounts (if needed)

To use a different account, sign out and return to the login page

### Tip

Save IntelliDraw to your desktop or mobile home screen for quick access

- **iPhone/iPad (Safari):** Tap Share -> Add to home screen
- **Android (Chrome):** Tap menu (three dots) -> Add to home screen
- **Desktop (Chrome/Edge):** Click menu (three dots) -> More tools -> Create shortcut
- **Mac (Safari):** Go to File -> Add to dock

If this option is unavailable on your device, you can bookmark IntelliDraw in your browser for easy access.
