Arnold Gelb, M.D., M.S. Senior Staff Pathologist, Clinical Trials

Arnold Gelb, M.D. is a board-certified pathologist with extensive experience in research, clinical and academic pathology. Before joining Quest Diagnostics, he served as Director of Pathology at Pathway Diagnostics where he developed new tissue biomarker assays. Previously, he was Senior Pathologist/Associate Director at Novartis/Chiron Corp. providing pathology support for the development of small molecule and monoclonal antibody therapeutics. Dr. Gelb has also served in various pathology roles at Deltagen, Inc., DNAX Research Institute (now Merck Research Laboratories), Kaiser Permanente, and UCSF. He has co-authored over 40 papers. He completed fellowships in hematopathology, immunodiagnosis and surgical pathology at UCSF and Stanford. Dr. Gelb received his M.D. from Stanford University.

Ronald Luff, M.D., M.P.H. Director, Anatomic Pathology, Clinical Trials

Ronald Luff, M.D., is a former President of the American Society of Cytopathology, and received their highest award in 2006—the Papanicolaou Award, named for the inventor of the Pap test. He also served on the Clinical Laboratory Improvement Advisory Committee (CLIAC), the federal government’s mandated advisory committee counseling Federal agencies responsible for enforcing Clinical Laboratory Improvement Amendments (CLIA). Dr. Luff leads a Quest Diagnostics team to support several global studies for a vaccine for HPV, the virus that causes cervical cancer. He is a Clinical Professor at Thomas Jefferson University and Medical Director of the university’s Program in Cytotechnology. Dr. Luff received both his Medical and Master of Public Health Degrees from Johns Hopkins University.

Marise Bayard-Mc Neeley, M.D. Associate Director Anatomic Pathology for Clinical Trials

Marise Bayard-Mc Neeley, M.D. served as Director of Clinical Laboratories and Blood Bank at Holy Cross Hospital Haiti, where she collaborated in Tropical Medicine Research with colleagues from CDC and Tulane University. She was a recipient of The Fogarty International Research fellowship at Cornell University Medical College, New York. Dr. Mc Neeley completed her pathology residency at Westchester Medical Center, New York Medical College and her Hematopathology fellowship at Temple University, Philadelphia. Dr. Mc Neeley is a Diplomate of the American Board of Pathology in Anatomic Pathology, Clinical Pathology, and Hematology. She received her Doctor of Medicine degree from the State University of Haiti.
A World-renowned Team

We understand that, as a clinical research scientist, you have very specific needs and high expectations. Our anatomic pathology leadership is dedicated to meeting those needs and exceeding those expectations.

As one of the world’s largest central laboratories, Quest Diagnostics offers truly unsurpassed resources in anatomic pathology dedicated to supporting global clinical trials. Our team of world-renowned pathologists with extensive subspecialty expertise in Oncology/Hematology, Gynecologic Pathology, Genitourinary Pathology, Gastrointestinal Pathology, Dermatopathology, Hematopathology, Respiratory and Thoracic Pathology can be integrated with your teams to speed your clinical trial programs.

Contact your local Quest Diagnostics Clinical Trials representative or visit our Web site www.questcentrallab.com for more information about our anatomic pathology capabilities and services.
