Health plan covers

Patient responsibility is based on her individual plan agreement. When patients chose QNatal Advanced, inclusive of copay and deductible:

- 76% of patients paid less than $99 out-of-pocket
- 85% of patients paid $250 or less
- Patients paid an average of $126 out-of-pocket

Individual health plan benefits vary greatly. The patient should consult her insurance company directly for the most accurate information relative to her individual coverage.

Uninsured

Health plan does not cover

The patient may be eligible for a discounted price of $300.

- Quest will bill the patient’s insurance company
- The patient will receive a bill from Quest reflecting her financial responsibility of $300, if eligible

While we support favorable coverage with our contracted health plans, patients will not be responsible for more than $300 if QNatal Advanced is deemed non-covered services. The $300 applies under these conditions:

- Quest Diagnostics is in network
- QNatal Advanced is deemed a non-covered service by the health plan
- Health plan has agreed to a reduced patient responsibility

Uninsured patient price (UPP)

If your patient does not have insurance, she may be eligible for an uninsured patient price of $395. To receive UPP Pricing:

- The patient must be uninsured
- The ordering physician must be enrolled in Quest’s UPP program
- The physician must order the test using the acronym UPP

Please contact your Quest sales representative with any questions about the UPP program.

Alternative UPP pricing is available in Florida, New Hampshire, Massachusetts, Maine, Rhode Island, Vermont, and Texas.

The QNatal® Advanced Cost Estimator is available and designed to provide an estimate of a woman’s out-of-pocket costs for her prenatal screening test. To access the Estimator, visit MyNIPTCost.com.
