Medicare National and Local Coverage Determination Policy - AL, GA, NC, SC, TN, VA

Policies in this MLCP Reference Guide apply to testing performed at a Quest Diagnostics facility and apply to Medicare National Coverage Determination Policy. This diagnosis code reference guide is provided as an aid to physicians and office staff in determining when an ABN (Advance Beneficiary Notice) is necessary. Diagnosis codes must be applicable to the patient’s symptoms or conditions and must be consistent with documentation in the patient’s medical record. Quest Diagnostics does not recommend any diagnosis codes and will only submit diagnosis information provided to us by the ordering physician or his/her designated staff. The CPT codes provided are based on AMA guidelines and are for informational purposes only. CPT coding is the sole responsibility of the billing party. Please direct any questions regarding coding to the payer being billed.

Please note this document has links to active Medicare Coverage Determination policies. Clicking a link below will leave the Quest Diagnostics web site. Quest Diagnostics does not control the site you are about to enter and accepts no responsibility for its content.
